DECEMBER 2022

Bringing data to life to improve  
the lives of those with DMD and BMD

# DUCHENNE

---

## DATA FOUNDATION

### Our Actions in 2022

Coming to the end of this year, here are our most important activities for the DMD community:

- The new clinical trial filter function has been deployed and is active on the [Duchenne Map](#). Registered users can now browse the map and search clinical trials according to their region, age, corticosteroid use and ambulation status.
- A new mutation type filter function is currently under preparation and will be released soon.
- The [Duchenne Siblings](#) webinar was held in June 2022 and the recording is available [here](#).
- An in depth analysis on the challenges that Duchenne Siblings face was published on our [website](#).
- In the context of the [Social Duchenne](#) project, results of the [survey](#) on the main social issues that DMD patients and their families are dealing with were published.
- [Duchenne Emergency and Capacity Building program](#) supported the Ukrainian crisis by providing financial support and equipment.
- 10 meetings with 8 companies have been held for the [Duchenne CAB](#).
- The [Duchenne Patient Academy 2022](#) with the theme "Changing Perspectives" was concluded successfully.
- We welcomed [1 new Board member](#), Arjen Bergsma.

**On behalf of the Board and staff, we wish you  
HAPPY HOLIDAYS!**
